12 TYPES OF SECTION:

The event will contain the following types of sections:

STANDARD R.10.2: These sections are used to test navigation. And can be timed to the previous whole minute or previous whole second.

NEUTRAL R.10.3: These are sections used to take competitors through PR-sensitive areas. They will be driven with as little noise as possible, without the use of auxiliary lamps except in conditions of fog or falling snow. There are no lateness penalties, except towards OTL.

13 CONTROLS / TIMING

Examples of each type of board to be used will be on display in the signing-on room at the start. Controls must be visited in the order on the Time Card. Competitors may reduce lateness and are reminded of R12.6.1.

Should an entry on a Timecard not be legible, or not appear to be authentic it may be considered not to have been made. Organisers may refer to Marshals Check-sheets in case of doubt. Any alterations or amendments to Timecards will only be accepted if countersigned by the marshal at time of amendment. **It is the competitor's responsibility to ensure that their timecard is correctly marked.** It is not the duty of the marshal to neither interpret these regulations, Motorsport UK regulations, or any other written instruction given to the competitors, nor explain the meaning thereof. **Please do not use a highlighter pen on your timecard.**

Main Time Control (MC): - Located throughout the event and their location is given. The marshal will record his/her signature, direction of approach and the time showing on the clock

when the competitor's timecard is presented, in hours and minutes. You must visit these controls within your Maximum Lateness to be classified as a finisher.

Standard Time Control (SF): - These timed controls are located at the end of a Standard Section and their location is given in advance. The marshal will record his/her signature, direction of approach and the time showing on the clock **when the competitor's time card is presented**, in hours, minutes and sometimes seconds.

Neutral Time Control (NC): - These timed controls are located at the end of a Neutral Section and their location is given in advance. The marshal will record his/her signature, direction of approach and the time showing on the clock **when the competitor's time card is presented**, in hours and minutes.

Passage Control (PC): - Un-timed manned control to prove adherence to the correct route. The competitor must stop and present the Time Card for the marshal who will enter his/her name and direction of approach. They may be replaced by a Route Check (RC) with no prior notice.

Route Checks (RC): - This unmanned PC will be identified by a **CODE BOARD** at the roadside, containing a number of letters and/or numbers, which must be noted by the competitor **IN INK** onto the Time Card, and **signed for by the marshal at the next manned control** to prove adherence to correct route.

Secret Checks (DSO): - Manned by a Driving Standards Observer, location will not be given. All competitors must stop and hand over their DSO / Damage card to the observer. Secret Checks will be established to ensure compliance with the Regulations, in particular the following under R9.1.3. Give Ways. Competitors will be required to stop at all junctions specified as "Give Way" junctions on the route cards. At these junctions all four wheels must be seen to stop and all forward motion must cease before the Give Way line or entering any road.

Judges of Fact (see G10) and Driving Standards Observers (see G11) will be appointed to adjudicate on:

Failure to stop at Stop or Give Way junctions.	False starts from any Time Control.
Compliance with Quiet Zones.	Unauthorised servicing.
Not complying with the route card.	Violation of out of bounds areas.
Driving in a manner likely to bring motor sport into disrepute.	Excessive sound.

The Welsh Association of Motor Clubs is increasingly concerned with the driving behaviour of some competitors at manned controls. Arriving at a control at a high speed with locked brakes can put the marshal at great risk. If the competitor car also has headlight main beam and spotlight(s) illuminated, this increases the risk as it impairs the vision of the marshal. We feel that we need to take action to ensure the safety of marshals.

14 QUIET ZONES

Along the route the organisers may establish Quiet Zones by notification in the route cards. Additionally, the use of Quiet Boards followed by OK boards will be placed to aid crews. They

will be driven with as little noise as possible, without the use of auxiliary lamps except in conditions of fog or falling snow.

15 BLACK-SPOTS

Certain areas may be classified as Black-Spots. Competitors must not enter these areas for any reason, even upon retirement as they are P.R. sensitive areas. The penalty for infringement is disqualification.

16 ROUTE

The Route will be approximately 120 miles long with a fuel halt after 80 Miles. You are required to bring Ordnance Survey maps 115, 123 and 124 with you to the event. The route will be defined by six figure references (plotted using a basic romer). Route Information will be issued at the start.

17 PENALTIES

Penalties will be assessed as per R.13, but modified as follows:

TIME CONTROLS SITED AT THE END OF A NEUTRAL SECTION.

- a) Early Arrival 1 Fail.
- b) Late Arrival No penalty, other than maximum lateness.

TIME CONTROLS SITED AT THE END OF A STANDARD SECTION.

- a) Early arrival 1 Fail per minute or part of (ignoring seconds carried forward on sections timed to the minute).

18 DAMAGE

Damage checks to competing cars will be made at the start, during the event and at the end. All competitors will be required to complete a damage declaration form to be handed in at the finish

or, in the case of retirement, forwarded to the Entries Secretary within 72 hours. Failure to do so will result in a competitor being reported to Motorsport UK and Club committee.

Competitors are reminded that the submission of a damage declaration form does not in itself negate their responsibilities within the law if they have been involved in a Road Traffic Collision. Any injury/damage to third parties **MUST** be reported to the Police and event organisers immediately so they may arrange prompt action/repairs.

R 15.1.4 - Vehicle damage in relation to 13(q) will be considered as being any tear or indentation exceeding 50mm in depth occurring to the external surfaces of the coachwork or its accessories (excluding windscreens, windows, lamps, and bumpers) above the horizontal plane at the wheel centre.

19 RESULTS

Assessment of performances between crews will favour the crews with the fewest number of 'Fails'. Ties will favour the crew that incurs the lesser total time penalties, and so on. Further ties will favour the crew who incur the lesser time penalty first.

To be classified as a finisher a competitor must visit all Main Controls, noise checks and scrutineering ('damage') within OTL in the same car that they started the event and avoid the penalty of disqualification. Provisional results will be published as soon as possible after the last car has arrived at the finish venue. Protests must be made in accordance with Motorsport UK regulation C 5. Please remain at the finish venue until the results are final!

Results may be declared final 30 minutes after being declared provisional at the finish.
